

Customer No.: 31561  
Application No.: 10/709,606  
Docket No.: 12239-US-PA

**REMARKS**

**Present Status of the Application**

The Advisory Action dated March 29, 2006 in response to the reply filed on March 17, 2006 had indicated that the proposed amendments filed after a final rejection will not be entered because the proposed amendments to claims 7 and 8 (contained in the reply filed on March 17, 2006) requires further search and/or considerations. Furthermore, the Office Action dated November 18, 2005 had indicated that claims 1-6 are allowed.

Upon entry of the claim amendments in this response, claims 1-6 are pending, as well as the claims 7 and 8 have been cancelled without prejudice or disclaimer in order to more explicitly describe the claimed invention. For at least the foregoing reason, applicants respectfully submit that claims 1-6 patentably define over prior art of record and reconsideration of this application is respectfully requested.

**Discussion for the cancelled claims 7 & 8**

Although claims 7 & 8 have been cancelled, applicants plan to reserve the right to pursue the subject matter of the canceled claims in a divisional application or continuation application.

CONCLUSION

For at least the foregoing reasons, it is believed that all the pending claims 1-6 of the present application patently define over the prior art and are in proper condition for allowance. If the Examiner believes that a telephone conference would expedite the examination of the above-identified patent application, the Examiner is invited to call the undersigned.
